

# ACG Premium Bundle

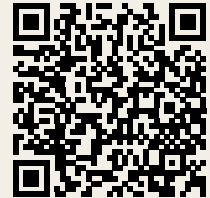

Your personalized local astrology experience

## Access code

**PE - ACG - 9Q3N - 5T6V - K2LD**

## Activation page

<https://chart.nanami-astro.com/personal-edition/activate?lang=en#code=PE-ACG-9Q3N-5T6V-K2LD>

Scan to open

## How to use

- 1 Open the activation page using the URL or QR code.
- 2 Enter the access code and your confirmed birth details.
- 3 Download the ZIP, extract it, and run start.bat or start.command.

An accurate, confirmed birth time is required. Estimated or unknown times cannot be used for the ACG Bundle.

# What is included

## Personal Edition FULL

This bundle combines calculated astrology data, a personal astrocartography map, and the Birth Chart Museum beta experience.

- Full natal chart data
- Asteroids and transit data
- AI-ready YAML and consultation prompt
- Personal local ZIP package

## Birth Chart Museum (Beta)

Explore your calculated birth chart as a visual museum. The abstract and architectural editions load your installed YAML automatically.

- No YAML paste required
- Runs from your downloaded ZIP
- Japanese and English display

## Astrocartography (ACG)

Your planetary angular lines are calculated in advance from your confirmed birth time and stored in the ZIP. Open the ACG button in the museum to view them.

- Precalculated personal lines
- Career and relationship presets
- Exact birth time required

# Using your Personal Edition

## 1. Start the local app

Extract the downloaded ZIP. Run `start.bat` on Windows or `start.command` on macOS. Your browser opens a local-only address.

## 2. Open the museum

Choose the abstract or architectural museum. Your birth-chart YAML is already installed and loads automatically.

## 3. Explore ACG

Select the ACG button, choose a theme, and tap planetary lines on the world map. Map background tiles require an internet connection; your birth YAML is not sent to the map provider.

## Ask an AI

Use the included YAML and prompt with ChatGPT, Claude, or Gemini. Ask the AI to interpret the calculated values without recalculating them.

- What themes are strongest in my natal chart?
- Which ACG lines support career or relationships?
- Explain the next month using my transit data.

## FAQ and important notes

### Can I use the code more than once?

The code is marked as used after the ZIP is created successfully. Keep the downloaded ZIP in a safe place.

### Why does the map need internet access?

Planetary-line data stays local. Only background map tiles are downloaded from the map provider.

### Can I use an estimated birth time?

The ACG Bundle requires an accurate confirmed time because the lines can move substantially across the world.

### Is this medical or financial advice?

No. This product is for personal reflection and entertainment and does not replace professional advice.

Specifications and supported features may change during the beta period. Please keep your ZIP and contact support if you need help.
